

AUDITORIUM AND STAGE DESCRIPTIONS

The historic Paramount Hudson Valley Theater offers and presents a broad variety of direct bookings and productions. It is also available for rentals for shows and events of many other types.

Rentals can include usage of full stage, dressing rooms, installed sound and lights, additional technical equipment with qualified and versatile crew and stage hands, and the beautifully restored auditorium, lobby and mezzanine art gallery for receptions.

Please request and refer to the Auditorium Diagram, Lighting Plot and Paperwork, Technical Specifications, and Backline documents. Rental Rate Sheets are available upon request containing standard fee details beyond the building information summarized here.

STAGE

The main acting space is approximately 28'0" x 40'0" wide with space downstage left and downstage right that extend the total width to 53'0".

Stage width at the plaster line is 42'0".

Our stage is 32'0" from the downstage edge to the back wall, including the 4'0" crossover behind the cyclorama.

Grand drape (red) aligns with plaster line, 19'0" from downstage edge.

Legs (black) are 3'0" upstage from the grand drape and draw in approx. 8'0" towards center

Upstage traveler (black) is 27'0" from downstage edge.

Cyclorama (white muslin) is 28'0" from downstage edge.

BACKSTAGE

Our loading dock door is 7'6" tall and 5'10" wide and is situated stage left.

Wing space is minimal. There is no fly space.

One roll-down (manual) movie screen (20'0"H x35'0"W) is hung 24'0" from downstage edge.

Lights are hung on 3 motorized trusses; one located 25'0" from downstage edge, one directly over downstage edge, and one approx. 18'0" from downstage edge over the house seats.

There is one empty motorized truss which hangs 23'0" from downstage edge.

FRONT OF HOUSE

Two spotlight booths are located above the balcony level, and their throw is approx. 100'0" from the downstage edge.

Light, Audio, and Video control share a booth at the back of the lower house level.
